Project Title: OJ Simpson Trial Website

I would like to create a site with multiple pages. The homepage will likely have its navigation both in a bar at the top of the screen or in a side menu. Within each of the pages, there could be navigation through tabs or drop downs. Imagery used would be both photographs of players and of the trial/crime scene as well.

- **Homepage/Introduction**
    - Brief overview of the case
    - Overall timeline
- **Key Players** – introduce the major people involved in the case as context for the trial page
    - OJ Simpson
    - Nicole Brown
    - Ron Goldman
    - Marcia Clark, etc.
- **Background -** Explanation of events leading up to trial, including known facts about case
- **Trial Proceedings**
    - Defense case
    - Prosecution case
    - Verdict
